

Cowhide

MED  SPA

Modern Aesthetics. Rooted in Texas.

AND BREATHE...

Pause.

The world outside can wait.

Draw in calm, let it roll through you like a soft Hill Country wind.

Five breaths — that's all it takes to come home to yourself.

Welcome to Cowhide.

THE COWHIDE FIVE

Breath is where balance begins. Each inhale steadies the body, each exhale reminds it to soften. When we slow the rhythm of breathing, the rest of us follows — the heart eases, the mind quiets, and the body remembers how to rest.

The number five carries quiet meaning five senses, five fingers, five ways we stay connected to the world around us. At Cowhide, The Five is our way of honoring that connection.

Before every treatment, guests are guided through five intentional breaths, a moment to arrive fully, to clear the noise, and to open the senses. It's a gentle transition from the pace of the outside world into one of calm presence and restoration.

The Cowhide Five is an act of grounding — A reminder that stillness is where renewal begins.

THE DESTINATION

Welcome to **Cowhide Med Spa**, Plano's premier wellness retreat where modern sophistication meets timeless Texan grace. Designed as a sanctuary of indulgence and renewal, Cowhide blends the serenity of a day spa with the precision of medical aesthetics. Our offerings include custom facials, expert waxing, brows and lashes, full-service salon care, and physician-directed treatments such as Botox, dermal fillers, microneedling and much more.

Every element is crafted to embody refinement. From luxury hair care and precision barbering to restorative nail therapies, professional makeup artistry lessons, and holistic wellness rituals, each experience reflects the caliber of a world-class resort while retaining the warmth of Southern hospitality. Every visit is a journey of renewal, where personalized attention, serene ambiance, and transformative results define our signature touch.

Created for the rhythm of modern Texas living, this signature treatment dissolves tension, replenishes hydration, and leaves the skin radiant and renewed. A gentle mineral exfoliation smooths and refines, followed by a deeply soothing head, neck, and shoulder massage to release fatigue and restore calm. The experience continues with slow, intentional bodywork designed to balance circulation and bring the body back to harmony.

The result is pure restoration — a moment of stillness, breath, and effortless luxury that feels like coming home to yourself.
